

Corporate Profile

Marine Integrated Survey Systems

Marine Products

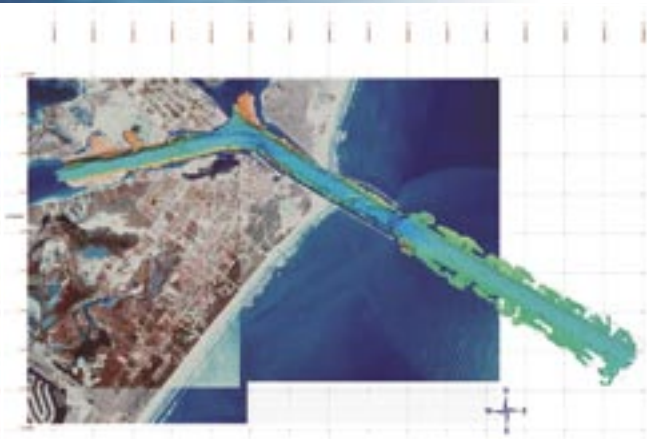

Survey & Technical Services

Since 1986 DWS International Inc. (DWSII), Corpus Christi, Texas (www.dwsii.com) has provided quality geophysical services and products worldwide. Our customers depend on us to deliver efficient, cost effective solutions to meet the challenges of any survey program, whether it is full, turn-key survey services, an integrated system or one of our innovative marine products.

Our focus is on safety, integrity and customer satisfaction which serves as the basis upon which

DWSII will diversify and continue to grow its worldwide presence.

As a member of the SolidWorks® Manufacturing Network, our design technicians use modeling software to develop innovative and efficient products and lay-out complex deck systems integrating environmental and safety features.

Our attention to detail and understanding of the harsh offshore environment aids us in developing intelligent and interactive products that saves time and money.

Our team of professionals acquire the most comprehensive and accurate data utilizing state-of-the-art systems and software.

Our experience and expertise in marine surveying is combined with our dedication in meeting our customer's goals . . . *Anytime* . . . *Anywhere* . . .

Based on the International Association of Geophysical Contractors (IAGC) guidelines, DWSII has developed and implemented an ongoing, comprehensive Health, Safety and Environmental (HSE) program which covers all aspects of our business. Our employees are dedicated to insure they integrate our HSE plan into their daily activities and assist management with maintaining a clean and safe facility. DWSII is a small, woman owned, certified Disadvantaged Business Enterprise by the USDOT.

"Equipment from the past . . . Equipment for the future."
